

BREATHING CIRCUITS

THE ONLY CIRCUIT EXCLUSIVELY FOR VETERINARY USE

EVEREST offers an exclusive range of anesthetic circuits for veterinary use only, available in different combinations according to animal weight, for anesthesia, surgery and recovery room.

EASY AND SAFE CONNECTIONS

22 mm female connectors made of soft, light and flexible material, which guarantee a secure fit and facilitate connection/disconnection to the anesthesia machine.

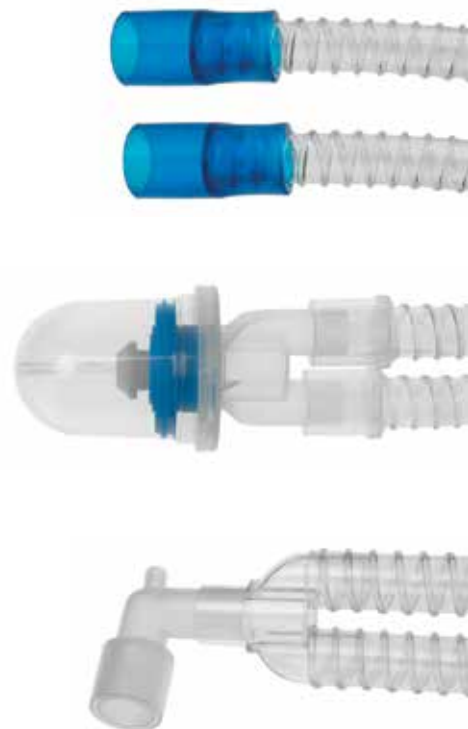

CLEAN MANUFACTURING

All circuits are manufactured in clean rooms.

FEATURES
